How is the qualification assessed?

Assessment is the process of measuring a candidate's skill, knowledge and understanding against the standards set in a qualification. Each candidate is required to undertake 3 task-based assessments. Centres are free to choose the date, time and location of the assessments, and there's no need to take them in any particular Order. Candidates will be issued with an individual result of 'achieved' or 'not yet achieved' for each of the individual components:

- Speaking, Listening and Communication
- Reading
- Writing.

If candidates do not achieve their component assessment they are able to re-sit the individual component. All 3 components must be achieved in order to obtain a full certificate. Partial certification is not available for this qualification. Grades are not awarded and the components are weighted equally.

Candidates can take their assessments at any time; however, as these are summative assessments, they should only be taken when the centre is confident that the candidate is able to achieve the component at the relevant level. During the assessments candidates will be assessed against all of the skills standards and each of the coverage and range statements that comprise the skills standards at Level 2.
